

Prof. Jun-ichiro KISHINE

Professor

Areas of Specialty

- Theoretical condensed matter physics
- Magnetism and spintronics
- Strongly correlated electron systems

Research Themes

- Chirality in nature
- Strongly correlated electron and spin systems

Education

- 1996 Ph.D. Physics , University of Tokyo
- 1993 M.S. Physics, University of Tokyo
- 1991 B.S. Physics, Science University of Tokyo

Career History

- 2012 - Present Professor of Physics, The Open University of Japan
- 2003 - 2012 Associate Professor of Physics, Kyushu Institute of Technology
- 2000 - 2001 Visiting Scientist, Massachusetts Institute of Technology
- 1996 - 2003 Assistant Professor, Institute for Molecular Sciences
